

LOW FLOOR UPFIT

CUSTOM VOCATIONAL CHASSIS

The Titan II Low-Floor, designed in partnership with Glaval Bus, incorporates a four-corner, self-leveling air suspension that gives it the ability to kneel with the touch of a single switch. This kneeling feature eliminates the need for steps and traditional wheelchair lifts by achieving a 1:6 wheelchair ramp slope, which exceeds the American's with Disabilities Act minimum requirement of a 1:4 ramp slope. Available with a limited 5-Year/100,000 mile chassis warranty.

FEATURES

- Purpose-built, low-floor platform for Glaval Titan II LF
- 1:6 ramp angle on level ground—exceeds ADA minimum—for easy load/unload
- Low-floor design offers improved route cycle times with ramp vs. lift system
- Straight entrance maximizes interior floor space for improved client experience
- Floor design allows random access for all passengers

SPECIFICATIONS

- Chevy G4500, 6.0L gas chassis
- Front & rear air-ride suspension with sway bars
- Front & rear electronic control kneeling
- Available in 24' / 26' / 28' lengths
- High-strength, low-alloy steel construction: 50,000 psi minimum yield
- Powder-coated frame for extended life and corrosion resistance
- Premium air dryer system with spin-on eco-friendly filtration
- 5 year/100,000 mile limited chassis warranty
- 460 authorized service centers nationwide
- Comprehensive service training for service technicians

Designed in partnership with Glaval Bus for the Titan II LF. Patent pending. Frame and cab upfit meets/exceeds General Motors Upfitter Integration Guidelines. Technical specifications and descriptions are subject to change without notice.

SPARTAN CHASSIS, INC.

spartanchassis.com

CUSTOM VOCATIONAL CHASSIS

Spartan Chassis, Inc. is a world-class leader in the design, engineering and flexible production of chassis, specialty vehicles and aftermarket parts for the defense, emergency response and outdoor recreation markets.

Spartan has made significant investments in facilities, equipment and skilled automotive personnel to support these markets. Flexible production lines allow quick re-configuration and/or ramp up to meet customer requirements. Spartan's campus features 11 state-of-the-art buildings for a total of more than 700,000 square feet of manufacturing space.

Contact a Spartan representative for a consultation on how Spartan can meet your custom needs.
